President's Flyby

Rhon Williams

Thankfully, COVID appears to be waning and restrictions are lifting. We have restarted our meetings in person and will continue virtual as well. Join us either way you can.

Last month we had an interesting guest speaker - Jaden Newman. She went from solo at age 16 1/2 to flying SIC in a Beechjet at age 18. Wow!

Congratulations to Justin Oseo as our latest Ray Scholar.

We are also restarting Young Eagles on June 12 - contact Peter Hurley if you are interested.

The chapter has a number of new members - so interest in aviation seems to be growing.

See you on June 12.

Rhon

president@eaa96.org.

Young Eagles

Peter Hurley

I just set up our Young Eagle Rally for June 12 after our General Meeting. We sold out with 45 registered in 12 hours. I just extended the limit to 50. Now all we need is pilots and volunteers.

We are finally able to meet again to offer free flights for kids 8-17. We will be flying from the Compton Airport terminal starting at 12:30 on Saturday June 12.

Please go to our on-line registration site for more information and reservations. Please print out a copy of your registration form(s) and bring it (them) with you for a quick and easy registration.

Parents and Volunteers may Register at: youngeaglesday.org and select our June 12 event.

Hangar Report

Jim Lobue

Latest addition to our hangar is a Culver Cadet that is undergoing inspection and repairs following a gear collapse landing here at Compton. While this incident is something no one wants to happen, at least EAA Chapter #96 is here to help. The VMC Club members decided to delay our program to next month in order to help move this aircraft into our hangar.

Compton CA 90220-3529

2020 is finally over. We made it through a very challenging year to say the least! EAA National is moving forward with Oshkosh 2021 plans and we hope that there will be plenty of opportunities to safely meet on a monthly basis for the VMC here in Compton.

George Hanniff and I will continue to lead the discussions and schedule the monthly gathering on the 1st Thursday of each month. We will publish the schedule in the Chapter 96 monthly newsletter as well as post it on the Chapter bulletin board inside the hanger at Compton. We want to encourage attendance and do not hesitate to invite your friends to our meeting. Our gatherings will follow the latest safe meeting protocols. We will continue to meet at 7:00pm and we will conclude at 8:00pm. The objective of the gatherings will be to discuss the months topic and provide open discussion of flight activities and experiences related to the topic. If time allots, discussion of other piloting activities and inquiries will enhance our meetings.

If anyone has any suggestions for a topic, please notify either George or myself via e-mail so that we can include the discussion in a future meeting.

In addition to the monthly gatherings, we will announce fly outs of our participants and additional flight activities that will be open to our group to participate. For those people who do not have an airplane or are looking for flight experience, there will be opportunities to join with members of our group to be included.

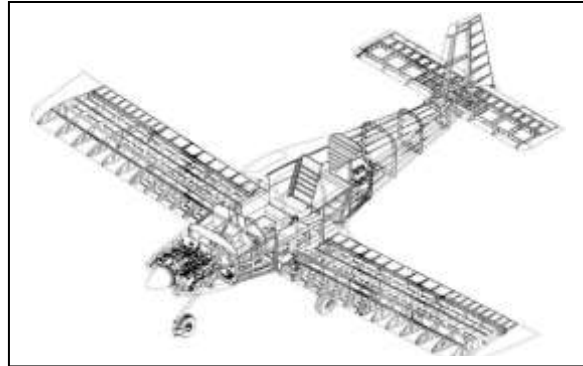

VMC Monthly Schedule:

- | | |
|----------------------|--------------------------------------------------------|
| July 01, 2021 | Topic: The engine skipped just one Beat |
| Aug 05, 2021 | Topic: Improved Situational Awareness with ADSB |
| Sept 02, 2021 | Topic: Powerless or over powered |

For more information, you may contact the VMC coordinators, Richard Schleicher at 310-936-5055 or George Hanniff at (310) 528-3900 or send an e-mail to chapter96VMC@gmail.com.
